- Security options

Warehouse Management

Faster order fulfilment with centralised Warehouse Management software

Cin7 Omni’s warehouse management system (WMS) improves stock visibility and connects with your sales channels — through fully integrated, scalable warehouse inventory management.

Primary Features

- Assign stock to bin locations as you receipt purchase orders
- Assign stock to temporary or permanent categories (i.e., faulty, on-hold, reserved, etc.)
- Fast and easy setup
- Handles batches, serial numbers and color-size products
- Partially or fully fulfill orders from other locations with simple branch transfers
- Pick’n’Pack module works online and offline
- Set products to be picked by preferred picking route
- Stocktake by product category
- Works perfectly on any 4.5” or wider Android or Apple device
Reporting and Insights

Inventory Forecasting Solution

REAL-TIME DATA IN ONE PLACE MAKES DECISIONS EASY

Save time consolidating reports with accurate and centralised data, anytime and anywhere. With Cin7 Omni’s inventory forecasting software, save time consolidating reports with accurate and centralised data, anytime and anywhere.

Primary Features

✔ Comprehensive library with scores of sales, supplier, safety stock, credit notes and other reports
✔ Dashboards show top-line data for at-a-glance view of business critical information
✔ Dashboard reports show sales by category and location, as well as top-selling products and top-spending customers.
✔ Each user can choose the reports they want to see on their homepage
✔ Export any report in Excel-ready formats
✔ Pivot tables make it easier to mine and read real-time data
✔ Save pivot table tabs to show the data you want to see each time
✔ Separate reports dashboard for staff and managers

Third Party Logistics

Outsource your warehousing with our 3PL integrations

Cin7 Omni integrates directly with 3PL (third party logistics) providers, giving you a low risk way to quickly and easily scale your business globally

Primary Features

✔ Automation for eCommerce and marketplace order routing
✔ Auto backorder items not picked by 3PL provider
✔ Automatically receive pick confirmations from 3PL provider
✔ Can receive carton numbers from 3PL for EDI orders
✔ Connect with your existing 3PL partners in minutes
✔ Dedicated 3PL compliance testing team
✔ Full EDI-compliance ensures seamless workflows to 3PL providers
✔ Growing number of integrations with global, regional and specialist 3PL providers
✔ Notification when you do not receive pick confirmation within a set time-frame
✔ Schedule uploads/downloads to and from 3PL without human intervention
✔ Single-click routing of all orders to 3PL provider
Direct Electronic Data Interchange (EDI)

Cin7 Omni Direct EDI Integration Makes Trading with Big Box Retailers Easier

We are a lean organization with a tiny staff, and everyone is multitasking. We absolutely could not have successfully jumped into the fast-moving EDI environment without Cin7 Omni.

David Dodd,
Shields of Strength

Primary Features

- Automatically download EDI orders, acknowledgements and other messages
- Automatically split multi-store orders into separate Cin7 Omni orders
- Connect with existing Direct EDI integrations in minutes
- EDI Dashboard indicates approaching deadlines and shipping windows
- EDI Dashboard shows every order at every stage for workflow transparency
- Full compliance-testing of all EDI messages required by EDI retailer
- Send EDI acknowledgements, shipping notices, invoices and other documents in a single click
- Set automation rules and use schedulers to reduce administration tasks
